Career Objective

Driven Computer Science graduate with foundations in SQL, Python, Excel, and Power BI. Eager to apply technical data processing skills, logical thinking, and social listening knowledge to analyze complex datasets and transform raw data into actionable business insights

Education

- Bachelor's Degree in Computer Science, King Mongkut's Institute of Technology Ladkrabang (2020-2025): GPA 2.82
-

Personal Project & Certificates

- **Retail Fashion Boutique Analysis Project**
 - Analyzed sales data using SQL to extract customer insights and revenue trends.
 - Built interactive Power Bi dashboards to track KPIs for data-driven decision-making.
 - **Course Pandas Foundation Final Project**
 - This is a project from Data Science Bootcamp 11(DataRockie) using knowledge to answer questions about doing Analysis using python
 - **Social Listening - Data Analyst Edition (DataRockie)**
 - Applied social data analytics and Thai NLP techniques to clean complex unstructured text, conduct sentiment analysis, and build dashboards to translate social trends into actionable business insights
 - **TOEIC Score - 625**
-

Skills

- **Data Processing & Analytics:** SQL, Python (Pandas), Advanced Excel (Pivot Table, XLOOKUP), Data Cleaning & Validation
- **Data Visualization:** Power BI, Google Looker Studio, PowerPoint
- **Domain Knowledge:** Social Listening Frameworks (Zocial Eye Concept), Consumer Behavior Analytics, Trend Identification
